

Dear Sir/ Madam

eTeens
STI (Sexually Transmitted Infections) /
HIV (Human Immunodeficiency Virus)
Prevention Programme in Schools

The Health Promotion Board (HPB) has been conducting an STI/HIV Prevention Programme in schools since 1993. The programme aims to raise awareness on STI/HIV, inform students about ways to prevent infection and discourage risky sexual behaviours.

2. In view of the increasing number of STIs reported among youth aged 10 - 19 years¹, HPB, in collaboration with the Ministry of Health (MOH) and the Ministry of Education (MOE), developed an STI/HIV programme titled *eTeens*² for students in secondary schools and JC/CIs.

3. *eTeens* comprises an assembly talk and classroom-based learning. It covers information on the transmission modes of STI, the signs, symptoms and consequences of contracting STI/HIV, effective methods of preventing infection including abstinence from pre-marital sex, being faithful to one partner in the context of marriage as well as condom use. It also teaches life-skills such as decision-making, assertiveness and negotiation skills. *eTeens* is conducted in schools by trained personnel from HPB and teachers. A factsheet on the programme, which is available on the MOE website³, is enclosed.

4. If you do not wish your son/daughter/ward to attend this programme, please complete the form on the next page and return it to the school. For any clarification regarding this programme, please email us at hpb_yhp@hpb.gov.sg.

Thank you.

Yours sincerely

Mrs Cheong-Lim Lee Yee
Deputy Director
Educational Institution Outreach Department
Youth Health Division
Health Promotion Board

¹ Reported cases of STIs among youth aged 10-19 years increased from 238 cases in 2002 to a peak of 820 cases in 2007.

² Previously known as Breaking Down Barriers (BDB).

Wise. Informed. Sensible. Empowered

AIMS OF *ETEENS*

1. The Empowered Teens (*eTeens*) programme aims to provide students with accurate information to help them make good decisions in their life choices. It raises awareness and knowledge about the following:
 - a) awareness of the different sexually transmitted infections (STIs) and HIV/AIDS;
 - b) modes of transmission for STIs and HIV/AIDS;
 - c) modes of protection against infection, specifically abstinence and the correct use of condoms;
 - d) skills for decision-making, assertiveness, negotiation to say “no” to peer pressure to have pre-marital sex; and
 - e) consequences and impact of STIs/HIV.

FORMAT OF PROGRAMME

2. The *eTeens* programme comprises two components: a mass talk segment and a classroom-based programme:
 - a) The mass talk segment is conducted by a facilitator engaged by the Health Promotion Board (HPB) from an approved panel. The presentation follows an approved facilitation guide.
 - b) The duration of the mass talk is about 45 minutes. It includes a multi- media presentation, video screening as well as facilitation of key learning points.
 - c) The classroom-based programme for Secondary schools comprises 3 lessons which teach decision-making, negotiation and assertiveness skills. The suggested time for each lesson is about 40 minutes.
 - d) Training for teachers to conduct the classroom-based programme is provided for by MOE and HPB.
